

THE

MYOBRACE

SYSTEM™

“Straighten teeth, no braces!”

The MYOBRACE™ is a new concept in orthodontic treatment, incorporating design characteristics which align the teeth and jaws, while correcting the underlying habits causing orthodontic problems.

MYOBRACE™ APPLIANCE: FEATURES

WWW.MYOBRACE.COM

INDIVIDUAL
TOOTH SLOTS
(NOT ON MBS™)

TONGUE TAG

DYNAMICORE™

SILICONE OUTER

The MYOBRACE™ features two main elements: a soft flexible outer area, and DynamiCore™ – a hard inner core. The pre-moulded arch form of DynamiCore™ produces arch lengthening by correcting the anterior arch form.

THE MYOBRACE SYSTEM™ BY MRC: STRAIGHTENING TEETH WITHOUT BRACES
